

NASF Norway Auction 2017

Photo: Mark Brooks

In Support of the Wild Atlantic Salmon

Oslo

9th November 2017 17:30 – 22.00 CET

Grev Wedels plass 9, Oslo

Direct on web, starting 18.00:

www.villaksauksjonen.hooked.no

In memory of Orri Vigfússon, the founder of NASF and the wild salmon's best friend!

Reddvillaksen had the privilege and pleasure of hosting Orri and an international delegation at Hardangerfjord Seminaret early May this year, when Norsk Industri presented their road map for future salmon farming. Orri's health was at that point already weakened, but he took part in all presentations and discussions. We could see that he became optimistic and had hopes for a future where all farmed salmon will be produced in closed containments, without spreading sea lice, diseases and bad genes to the wild salmon.

Orri Vigfússon, became the Atlantic salmon's greatest friend as this iconic species struggles to retain its position as the 'King of Fish'. His enormous efforts to rebuild the threatened wild salmon stocks in the North Atlantic, brought him global recognition and well-earned honours from a huge number of admirers. Royalty and commoners, presidents and governments, anglers and conservationists alike have all applauded and rewarded his work with a wide variety of awards and supportive declarations.

In 1989 Orri observed the great damage being done by nets and long lines to the relatively small numbers of salmon that remained. Orri successfully pursued his idea of buying up commercial salmon quotas from fishermen in the Faroe Islands and Greenland. A quota buyout was subsequently agreed with fishermen at Fareoes in 1991 and in Greenland in 1993. Gradually more agreements have been made on both sides of the North Atlantic through the work of NASF and its coalition partner organizations. Over the years more than 15 million salmon lives have been saved.

The origin of 50-60 % of salmon feeding or migrating in Faro water belongs to Norwegian rivers. Many Norwegian West Coast rivers would probably have been closed if this important buyout had not been done.

Orri's contribution to the Atlantic Salmon was beyond all measure.

Orri, we guarantee you that ASF, Reddvillaksen (NASF Norway) and other NGO's will work hard to continue the work you started. But you left us a big pair wading shoes to fill.

Information on bidding and payment

This English version is a short version of the full Norwegian catalogue at www.reddvillaksen.no.

The auction will be transmitted live on the internet!

You can log on to <http://www.villaksauksjonen.hooked.no> and place bids online during the event. Bids will be updated continuously on the screen. Be aware that there might be a lag up to 30 seconds on live streaming. Make the call in advance and hold the line when you are in the bidding process. Your telephone helper will guide you.

ADVANCE BIDS: To Gerhard Schive at e-mail gerhard.schive@schive.no or to Jens Olav Flekke jof@dmf.no.
Live bidding via phone can be arranged on request.

Or call on live auction 0047/+47

913 93 383

901 75 990

918 87 045

915 68 229

924 37 996

PAYMENT: Unless otherwise agreed, all purchases should be paid for at the auction, either by Vipps or by Credit Card (Master Card and Visa).

Our Vipps number is: Nordatlantisk Villaksfond Norge: 71265.

Unfortunately, we do not accept cash.

Donations to NASF Norway account no 1503.24.56232 would be appreciated. (See IBAN/SWIFT in footer).

National fishing license

If you are going to fish for salmon, sea trout or arctic char, you must pay a national fishing license in advance. Children and youth below 18 years is not required to pay the fee.

About Reddvillaksen.no

Reddvillaksen is a nonprofit foundation established by Orri Vigfusson/NASF, formally established in 2008. The foundation is committed to bring atlantic salmon and sea trout back to abundance. The board has 6 members, all working on a voluntary basis with no economic compensation. The foundation provides direct financial support to important projects. We are lobbying and talking to the politicians, informing about the present negative effects caused by the aquaculture industry. Reddvillaksen wants to make it clear that basically we do not oppose to having an aquaculture industry, but the present production method with open pens, is as far from sustainability as can be. On salmon and sea trout issues the foundation is working together with Norway's major sports fishing and hunting organization NJFF, Norske Lakseelver and major environment protection organizations in Norway. Our main income source is the annual "Wild Salmon Auction" taking place late autumn in Oslo.

Our main goals:

- Salmon nets in the sea are illegal, fishing on mixed- endangered - and other countries' stocks. They should be stopped immediately.
- We claim that the present salmon farming techniques based on open pen nets is environmentally hostile, representing a serious threat to wild atlantic salmon and sea trout. Current salmon farming is therefore not sustainable. All open pens nets must be converted to closed containment technology -now!
- Double marking for identification and traceability of all farmed salmon.
- Considering the alarmingly low number of adult salmon returning to our rivers, too many fish are killed by Norwegian sports fishermen. Reddvillaksen is promoting the catch & release policy and stricter baglimits.
- Directly support improvement of spawning areas and living habitats in creeks and streams.

The MENUE:

This year we will serve our guests a varied tapas menu.

PROGRAM:

Approx time:

- 17.00 Door opens
- 17.45 Tapas ready
- 18.00 Web transmission starts at www.villaksauksjonen.hooked.no
Speeches and info
- 18.30 Live auction part 1 and honouring "Gullaksen 2017"

Break/ Silent auction

- 20.00 Surprises and live auction part 2
- 21.30 End live auction
- 22.00 End silent auction

Gaula NFC

Norwegian Flyfishers Club invites very attractive Gaula fishing

Place	Sør - Trøndelag - Rogstadmoen
Fishing rods	2
River	Gaula
Fishingdays	3
Accommodation	At the high class international NFC lodge
Time	Agreed with donor asap
Value	NOK 20 000

Norwegian Flyfishers Club offers salmon fishing on some of the premium fly beats on the mighty Gaula. Fishing takes place both above and below the Gaula waterfall, which securing consistent fishing regardless of water level and river conditions. The lodge is located riverside at the Rogstadmoen farm, close to many of the better pools just above Støren. One fishes a number of pools of excellent quality on a rotation system where two rods fish together. Famous pools such as Tysshølen, Renna, Tilset, Long Pool, Bogen Søndre, and Lundamo are included. Accommodation is at the NFC lodge with an international atmosphere. Single rooms with en-suite bathrooms. Breakfast and dinner will be included, and the lodge also has a full bar, a tackle shop, and if that is not enough, a sauna with massage is available upon request. You can hire friendly and highly skilled guides if you wish.

Greenland - Lax-A

Arctic char fishing at the highest quality

Place	Greenland
Fishing rods	2
River	Lax-a camp
Fishingdays	4
Accommodation	Lax-á camp, all meals included
Time	24 - 28 July
Value	NOK 68 400

Greenland is the wildest place on earth for char fishing, thousands of rivers and lakes, full of Arctic Char. The size of the fish is 1-7 lbs + and because of the enormous territory and relatively few inhabitants, many of these fishing areas are hardly fished at all and some rivers have not seen an angler – ever. This abundance of Arctic char – and the magnificent nature, truly makes this a fishing paradise! The Lax-á camp is located on the coast of Southwest Greenland (2,5 hours by boat from Narsassuaq) and was the first ever permanent hunting-and fishing camp in Greenland. The camp has running water, WC, showers and sauna but still manages to be wilderness camp – equates to a really a unique experience!

Meals are prepared by the camp chef – most of the menu originates in area (caribou meat, arctic char and fish from the sea). Included in the package: Welcoming at arrival in Greenland, Boat transfers in Greenland. Full board and lodging at the Lax-á camp, shared cabin, 1 guide to every 4 anglers and all fishing licenses in Greenland. For more info:

www.lax-a.net/greenland-fishing/

Donor	Angling Club Lax-a, www.lax-a.net

Stjørdalselva - Forra

Opening days on the stunning beat Fossen

Place	Nord - Trøndelag - Stjørdal
Fishing rods	4
River	Stjørdalselva - Forra
Fishingdays	2 1/2
Accommodation	A self—catered cabin, only 100 m from the river equipped with everything required in a fishing cabin
Time	00.00am June 1st and ends 11.00am June 3rd.
Value	NOK 17 000

The Foss Beat at the very top of the Forra tributary is one of the real pearls in the Trondheim region. Below the waterfall, where the salmon can get no further, you find some of the most secluded yet easily accessible salmon fishing there is. The beat contains five pools with the classic Små Fossan as the upper one. Beautiful Strokka and Djupdalsholen are two other pools. The beat is 2 km double bank fishing, fly fishing only and fishes well at high as well as low water. A self—catered cabin is included, less than 100 m from the river. The cabin is equipped with what is needed in a fishing cabin.

Aaelva

The small hidden river with the big fish!

Place	Nordfjord, Hyen
Fishing rods	2
River	The river Aa
Fishingdays	24hrs. Fishing commencing and ending at 1500hrs
Accommodation	The Aa Fishing Lodge, self-catering
Time	June 30 – July 3
Value	NOK 15 000

The Aa river is a hidden pearl in the Nordfjord region in the western part of South Norway, about 40 minutes from Sandane Airport and a little more from Florø Airport. On its way from the inlet of the lower Aa Lake and down to the Sea Pool the river has 12 pools, varying between fast water to more classic pools, all offering exciting fishing in wonderful surroundings. The river holds all sizes of salmon from MSW to grilse. Every year fish of 15-17kg are caught. Last part of June and first half of July is prime time. From Sunday afternoon, July 1st, a second and adjacent river, The Hope, is included. Accommodation in double rooms in The Aa Fishing lodge with a wonderful view of the lower part of the river and The Hyen Fjord, all surrounded by wild and snow capped mountains. Fishing commences at 15:00 and ends at 12:00. Buyer will be fishing together with other fishermen. Fly fishing only. Accommodation in double rooms in the Aa Fishing Lodge.

Bolstadelva (The lower part of the Vosso)

Once known for its enormous MSW salmon.

Place	Hordaland - Bolstad. (Close to Voss)
Fishing rods	8
River	Bolstadelva
Fishing days	3
Accommodation	Self-catering in the legendary "Oddsbu"
Time	To be agreed with donor
Value	NOK 50 000

Bolstad river is famous among sport fishermen that know their history. A project involving the local community, wild salmon enthusiasts, scientists and other public and private stakeholders, has over the last decade worked hard to reestablish the native stock from a live gene bank. Since 2012, fishing has given very positive indications of a recovering stock. We are hoping that 2018 will turn out with catch of some of the real Vosso monsters. Salmon in the range of 15 to 18 kilo are caught every year, we are waiting for the first +20 kilo. Boats are available in all pools and guides can be hired upon agreement. Accommodation with self-catering is in the legendary Oddsbu, used by salmon angling aficionados such as Arthur Oglesby and Ernest Schwiebert.

Årøy/Lærdal

Årøyelvi 1 day and Lærdalselvi 2 days. Unique combo (Aaroy and Laerdal)

Place	Sogn og Fjordane - Lærdal
Fishing rods	4
River	Årøyelvi and Lærdalselvi (Aaroy and Laerdal)
Fishingdays	1+2
Accommodation	Nice fishing-lodge at both rivers. All meals incl. buyer has to bring own alcoholic beverages
Time	Årøy 17-18.8 kl 14.00 – 14.00, Lærdal 18-20.8 kl 17.00 – 17.00
Value	NOK 100 000

Årøy is a big fish river. The river is short and owned by one landowner only. The group have the whole river to themselves. With the secluded location in the inner part of Sognefjord, the location provides a unique atmosphere of peace and quiet. Fishing partly takes place from "the platforms of despair" (named so by the late Charles Ritz). We recommend a strong leader! The owner is a fantastic chef, serving all meals based on local food. You might also meet him riding his beer-moped, serving thirsty anglers a tap of his home brewed beer! One skilled guide is in place to assist the guests. Driving to Laerdal will take 1 hour (incl ferryboat). Laerdal is back in business. Eager fishermen are lining up and access to fishing is not easy. This is your chance..... Laerdal Elveigarlag has donated splendid fishing at Eri/Voll beat. Main pools are Sunray Pool, Sanda Pool, Svingen Pool and Merket Pool - and 4 more pools. Sunray and Sanda Pool is a massive, long and classic stretch that will produce fish on all water levels. The tail is deadly for sea trout. The seatrout will be in place and there is a good chance of a PB. Jens Olav Flekke (Chairman Reddvillaksen) will be guiding. He knows the pools at all water levels and temperatures - and will bring some "secret" flies just in case. Breakfast and dinner will be served at the beautiful Hedda Lodge overlooking the river. Evening meal made on open fire will be served right on the river bank on top of Sunday Pool. International flights - Bergen or Oslo and rental car. Local airport - Sogndal and rental car.

Donor	Nina/Knut Munthe Olsen, www.aaroyriver.no/home Lærdal Elveigarlag, Lasse Selthun, Isaelthu@online.no

Mørrums Kronolaxfiske

Unique opportunity, prime time fishing for large seatrout

Place	Sweden - Blekinge
Fishing rods	2
River	Mørrum
Fishing days	2
Accommodation	Kronolaxfisket's cabin, double room
Time	1.9 – 30.9 2018 to be agreed with donor
Value	NOK 10 000

Mørrum is Sweden's crown jewel in the sport context, and one of the world's most famous rivers for salmon and sea trout fishing. Those of us that have lived for a while, never forgets wet fishy dreams when ABU yearly published "Napp og nytt" with nice gear and pictures of giant fish. The Swedes have managed their fishing well, Mørrums delivers year after year. Buyers may freely choose which of MÖRRUM zones they prefer to fish - and when. The first day includes 1 hour instruction with one of the river's expert guides. The package is valid for 2 people. Accommodation at Kronolaxfisket's own home directly by the river with a shower and toilet. Alternative and more comfortable accommodation can be arranged, but at the buyer's expense. The buyer can choose days between the 1/9 and 30/9. Fishing must be booked no later than 15. February 2018.

Donor	Mørrums Kronolaxfiske www.morrum.com
Contact	Receptionen Mörrums Kronolaxfiske, morrum@sveaskog.se , +46 454 50123

Namsen - Fiskumfoss

Nedre Mediå - Sanddøla

Place	Grong, Nord-Trøndelag
Fishing rods	2
River	River Namsen and River Sanddøla
Fishing days	3
Accommodation	At Namsentunet in double room from afternoon 10th June, full board
Time	11 – 13 June
Value	NOK 30 000

This splendid package is upgraded for 2018, and now offers fishing on both Fiskumfoss and Nedre Mediå on the River Namsen and one beat on the River Sanddøla, Namsen's main tributary. It may be possible to fish after arrival on the afternoon of 10th June, contact the donor for arrangements.

Fiskumfoss is the uppermost fished beat in the Namsen river. The top of the beat is the massive pool below the impressive 35 meters high Fiskum Falls (foss). Several thousands of fish can be gathered there, waiting for the right conditions to enter North Europe's longest fish ladder enabling them to pass the fall. The Fiskumfossen beat is unique and has been named "The Cathedral of Nature". Only customers of Upper Namsen Fishing/ Namsentunet have access to the beat. Annual catch is between 700 and 1 400 salmon.

Nedre Mediå and Sanddøla close to the community of Grong offer varied bank fishing and are very popular beats with fly fishers. The fishermen are encouraged to practice catch and release.

The "Namsentunet Lodge" is a new lodge, nicely located right on the riverbank, 3 km north of the Grong village. It resembles a modern and high quality "Viking village", with facilities like a restaurant with "homemade" and local food, saunas, Jacuzzis, drying rooms and pleasant and comfortable beds. All a fisherman can wish for after a long day at the river.

Donor	Upper Namsen Fishing together with Namsentunet www.namsentunet.no

Ingelsvatnet

Wilderness fishing for trout and char

Place	Nordli, Nord-Trøndelag
Fishing rods	2 - 4
River	Lake Ingelsvatnet and River Ingelvasselva
Fishing days	3
Accommodation	The Smørdall-Jo cabin, self-catering
Time	To be agreed with donor, Prime time end of June
Value	NOK 6 000

The beat on River Ingelvasselva is about 3 km long, consisting of rapids, pools and small lakes. You will find big char near in the inflow in these small lakes when insects are hatching, especially in the Storflyen. Lake Ingelsvatnet is approx. 5 km long and holds a substantial population of wild brown trout and char.

The Smørdall-Jo cabin is found in idyllic surroundings on the Lake Ingelsvatnet, ideally located closed to the outflow of River Ingelvasselva. You can drive by car to Lake Ingelsvatnet in Nordli, and take the boat with outboard engine (included in the package) to the cabin which is found at the other end of the lake. This is a true wilderness experience.

The cabin has two bedrooms, each with a single bed and double bunk beds. Guests should bring their own sleeping bag. There is a wooden stove in addition to propane cooking equipment.

Lakselva in Porsanger

All zones, huge salmon

Place	Finnmark - Porsanger
Fishing rods	2
River	Lakselva
Fishing days	3
Accommodation	Self-catering in a simple but charming hut
Time	To be agreed before February 15th with donor
Value	NOK 16 000

Lakselva is known for its huge world class salmon and it is difficult to gain access to fishing. In 2107 9 fish broke the 20 kilos mark on the scales, biggest was 25 kilos. Average weight for the season was 7,6 kilos.

Buyer can fish for 3 days on all 4 zones! It's a great advantage to choose freely there and then! Lakselv Grunneierforening provides further tips and information about the zones and relevant fishing spots. Each license is personal and cannot be shared or used by anyone else. There will be others fishing in the same zone, but there is plenty of space. The package also includes self-catered accommodation in a simple but charming hut near the Pikkulompola pool. More comfortable accommodation can be arranged, but at the buyer's expense. Lakselva is a relatively late river and we recommend from mid-July and August.

Period to be agreed with contact person by 15 February 2018.

Donor	Lakselv Grunneierforening www.lakselva.no
Contact	Egil Liberg, mobile: + 47 9417 8428, email: post@lakselva.no

Gaula - Frøsethølen - July

The Frøset Pool

Place	Sør - Trøndelag - Støren
Fishing rods	Up to 5 rods
River	Gaula
Fishing days	3
Accommodation	Self-catering in the fishing cabin overlooking the pool
Time	July 19-21
Value	NOK 25 000

The Frøset Pool is in the middle part of river Gaula and this slot offers fishing at prime time when the pool usually is filled with fish showing. The Sokna river empties into the pool, offering very simple and nice single hand rod fishing with a short line. Ideal for youngsters about to be addicted to salmon fishing. This is the place to experience the fishing of their lifetime. Without doubt, this can be some of the best July fishing available in Norway. The fish is always present in the pool but it is up to you to hook them. Catering is not included but the kitchen is very well equipped. The beds are equipped with duvets and blankets but not linens which have to be brought by the buyer. The fishing commences at 20:00 and finishes at 17:00

Donor	Tina & Knut Gunnar Frøset and Pål Klouman
Contact	Pål Klouman, +47 22603450/ +47 474 15 312, klouman@online.no

Alaska!

Two rods for one week at Talkeetna Fishing Lodge.

Place	Alaska
Fishing rods	2
River	Chunilna «Clear» Creek
Fishing days	6
Accommodation	Talkeetna Fishing Lodge
Time	June/July/August, exact dates agreed between donor and buyer
Value	NOK 55 000

Henrik Wessel is a Norwegian who has been rambling around and has seen more of the globe than most of us. He has been living in Alaska for more than 20 years and for a long time he worked with government environment quality matters. Until he dived into the bushes and found HIS river. Since he is a multitasking guy who knows a lot about everything he just built the lodge with his own hands. He is now the owner of the lodge at Clear- or Chunilna Creek which is the native name of the river. The river is crystal-clear and most of the fishing is sight fishing from the bank. The river holds all species of Pacific salmon, rainbows and arctic char. Pick the time for your fishing depending upon what type of species you want to fish for. In addition to just staying at the lodge Henrik also recommends a sightseeing with a private plane or helicopter. Buyer is recommended to contact Henrik as soon as possible to avoid full booking at the desired time of visit.

Donor	Henrik Wessel www.talkeetnafishinglodge.com
Contact	Henrik Wessel. E-mail: alaskasafari@yahoo.com , Phone: +1 907 799 850

Vefsna

Wild, beautiful and reincarnated

Place	Mosjøen, Nordland
Fishing rods	3-6
River	Vefsna
Fishing days	2
Accommodation	The Forsjord Villa, Forsjordvillaen. (Catering not included).
Time	July 1 and 2
Value	NOK 35 000

Vefsna has historically been one of Norway's greatest salmon river famous for its big MSW fish. The beat Forsjordio at the beautiful waterfall Forsjordfossen has been famous worldwide. Vefsna was hit by the devastating gyrodactilus salaris and the river has been closed for decades. The rescue operation has been by far the most extensive project ever in Norway, with more than 20 tributaries and adjacent watersheds. The river is now declared healthy, fit and has now been reopened for fishing in 2018. Test fishing over the last years has been very promising and we are extremely pleased to have Vefsna in our catalogue this year, for the first time. In addition to some water above the waterfall the beat includes the impressive Forsjordio pool below it. All migrating fish do halt below the waterfall before continuing upriver. The MSW fish start coming in early June and continue running until mid- July. July 1st and 2nd are right in the middle of peak season when the pool holds an impressive number of big fish. Accommodation is in the beautiful and historic Forsjordio Villa built by and for English sports fishermen in the early nineteen thirties. This lovely building has 6 bedrooms housing 10-11 persons, kitchen, two living rooms, two baths and a separate sauna house. Catering is not included. To get the most out of the fishing we recommend experienced boatmen/guides who can be hired separately and for the clients' expenses. The donor can assist.

Donor	Brodtkorb Eiendom , Ellen and Bjørn Brodtkorb, www.vefsnafishing.com (active after November 2017).
Contact	Mrs. Ellen Brodtkorb. Phone +47 952 22 429 (after 16:00).

Repparfjordelva

One of Finnmark's best rivers

Place	Skaidi, Finnmark. (near the city of Hammerfest)
Fishing rods	3
River	Repparfjord river
Fishing days	3
Accommodation	To be arranged by buyer but contact person can assist
Time	Any time during the season. (To be agreed upon)
Value	NOK 10 000

Repparfjordelva is a gem of a small arctic river. Crystal-clear and ideal for the fly fisherman. In particular for those being keen on dry-fly fishing. The river is a beautiful mix of relatively small and shallow pools with whitewater and rapids between them. In the mid part of the river it slows down for about 4 km. with deeper pools. A very charming river in which the salmon runs all the way into the mountains of Sennalandet. That far up the fishermen are fewer and you can walk for hours in pristine surroundings. The fish willingly takes the dry-fly, and we can guarantee good sport on both single and double handed rods. The permits are valid for all zones, from bottom to top. We recommend end July, beginning of august.

Lærdalselva - Øye

A unique opportunity. Big MSW salmon in June

Place	Lærdal, the legendary Øye beat
Fishing rods	1
River	Lærdalselva
Fishing days	3
Accommodation	In the nice fishing house at the Øye farm where all meals are served
Time	June 24-27
Value	NOK 18 000

Over the last years the Lærdal has been fishing excellent, particularly in June and early July and the average size of the June fish has been a whopping 10kg. The beat offers 7 lovely and very fishable pools. The battle against the lethal gyrodactilus salaris has now come to an end. Hence the river is now declared recovered with a healthy and good population of mainly MSW fish. Due to this, fishing in June and July is very much sought after and fishing is extremely difficult to get access to.

Accommodation in the lovely fishing house at the Øye farm with the nice veranda in the middle of all the cherry trees where so many great fishing stories have been told. All meals, breakfast, dinner and night snacks are included. The buyer will be part of a group of 6 fly fishermen sharing the beat together. Fly fishing only. For 2017 there was a bag limit of one male salmon pr. day. We expect the same for 2018. We recommend catch and release of all fish. The fishing is commencing at 16:00 and ends at 14:00.

Gaula Sunnfjord, fishing for up to 8 persons

Exclusive fishing under the legendary waterfall

Place	Sunnfjord, West Norway
Fishing rods	Up to 8
River	Gaular
Fishing days	2
Accommodation	High standard cabins, meals included
Time	July 29th 06.00 PM - July 31st 02.00 PM
Value	NOK 80 000

Salmon fishing in Gaular, Sunnfjord, is highly varied, and include the famous fishing under the Osfossen near the bottom of the river, to varied fly beats above the waterfall. The river is pristine and unaffected by major human impacts, with a stunning landscape surrounding the water. Most of the pools are easily accessible. Fishing under Osfossen is very famous and hard to get access to. The traditions reach back to the mid-1800s, and the waterfall is also famous for having the oldest fish ladder in Norway, built in 1871 by the Irish salmon angler William T. Potts. Osfossen ranks along other famous waterfall pools in Norway, such as the Målselvossen and Gaulfossen. The beats above the waterfall are Skjæret (just above), Døskeland (7 km above). All these zones are considered good, well described and with shelters. Guiding is by the company Salmon Experience. The destination is 10 minutes from Førde airport, Bringeland.

Årøyelvi (Aaroy)

A gem that just improves

Place	Sogn og Fjordane - Årøy
Fishing rods	4
River	Årøyelva
Fishing days	3
Accommodation	Aaroy Lodge, all meals included. Bring your own alcoholic beverages
Time	Check in Sept 4, 8 pm. Fishing Sept 5-6-7. Departure Sept 8 after breakfast
Value	NOK 100 000

Since the mid-1800 there have been visiting anglers at Årøy. The river is short and owned by one landowner only. The group have the whole river to themselves. With the secluded location in the inner part of Sognefjord, the location provides a unique atmosphere of peace and quietness. The owner is a fantastic chef, serving all meals based on local food. You might also meet him riding his beer-moped, serving thirsty anglers a tap of his home brewed beer! One skilled guide is in place to assist the guests.

Årøy is famous for large salmon in fast flowing, white water. For the last years the fishing has improved and improved. Be ready for the fight of a lifetime! Fishing partly takes place from "the platforms of despair" (named so by the late Charles Ritz). We recommend a strong leader! Silver salmon are also running in September.

One skilled guide is included.

This time of season the seatrout starts entering the river. The seatrout in the Sognefjord grow big because they feed on herring. Bring some lighter tackle, black flies, head-light and a battery powered heart starting machine just in case. Enjoy.

Orkla - Midtre and Øvre Ekli

Great fishing, great accommodation!

Place	Orkdal, Sør-Trøndelag
Fishing rods	4
River	River Orkla
Fishing days	2
Accommodation	Baardsdhaug Mansion Hotel, Orkanger. Breakfast included
Time	6 – 7 July
Value	NOK 25 000

The Orkla is a wonderful river and has enjoyed tremendous salmon fishing the last few seasons. Øvre- and Midtre Ekli (Upper and middle Ekli) are considered to be two of Orkla's ultimate beats, in particular the Upper, and offers the fly fisherman varied and challenging fishing for big MSW salmon. With its legendary catch records and fishing it is close to impossible to get access to this fishery. We therefore are very pleased to have this offer even for this year's auction. In combination with the accommodation at The Baardshaug Mansion Hotel we are convinced that the buyer will have a memorable stay and hopefully fishing to be remembered for years.

Fishing is for two days and nights, all 24 hours. (Daylight all through the night).

Start up the first day at Midtre Ekli on July 6th midday at 1200hrs, the second day at Øvre Ekli commencing on July 7th and finishing on July 8th midday at 1200 hrs.

The Beiarn River

Improving year by year

Place	Beiarn, Nordland, 110 km south of the city of Bodø
Fishing rods	2
River	Beiarn
Fishing days	2+2+2+2, total 8. -2 days on each beat
Accommodation	Not included, contact www.beiarn-turistsenter.com
Time	To be agreed with contact person. (Not opening day)
Value	NOK 21 600

The Beiarn River did fish very well this year. Previously annual catches have averaged 2000kg but for 2016 and -17 the numbers have been 9 000 kg sea trout and salmon.

This is a great opportunity to fish 4 different beautiful, long and varied beats in stunning surroundings. When driving from Bodø you will be passing Norway's famous biggest and roaring tidal "river" the mighty Saltstraumen (The salty current).

The fishery offered includes four different beats: Trones; 5,2km, Nes; 4,8km, Os; 2,9km and Strand. 5,1km. A total of 17,6km. You might meet others fishing the beats but with such a massive piece of water there will always be plenty of room for all without interfering with each other. Accommodation is not included but can be ordered at www.beiarn-turistsenter.com,

email: nye.beiarn-turistsenter@gmail.com. Guiding is not included but recommended. Can be ordered at Frantzen Gjestgiveri, Mr. Hans Marvoll. Phone +47 454 700 11 or +47 920 71 500. Time of fishing to be agreed with the contact person. For further information about the beats see www.beiarelva.com.

Tovdalselva

South Norways "secret" salmon pearl - 4 rods in three days in August

Place	Aust-Agder - Birkenes
Fishing rods	4
River	Tovdalselva
Fishing days	3
Accommodation	2 days at Boen Farm, 1 day at Rislåvollen Farm
Time	August by agreement with owner
Value	NOK 25 000

Tovdalselva offers great variety in fishing, spectacular waterfalls, and many great fly flows. The river has a low fishing pressure! Stately Boen Farm is located at the bottom of the waterway under Boen falls. High tide goes up to Lille waterfall, a fishing spot that can be very rewarding. This year a run of 3000 salmon went through the stairs by Boen, besides a lot of fish run up the waterfall. Rislåvollen Farm is located upstream of Birkenes with zones Buhølen and Laksfoss with exciting pools and streams. We compare this part to be like Rynda on Kola, but with trees. Buyer disposes zones exclusively and it is a lot of space for 4 rods. Start Guiding with local expert is included both places. Further guidance can be ordered at your expense. Daily fishing period is from 00.00 to 24.00. Easy access by car from South Norway. Kjevik Airport nearby. Rislåvollen Farm: rislavollen.no/galleri/ Accommodation on night in three rooms cabin at the idyllic Rislåvollen Farm. Self-catering. Meals can be ordered at your expense. Boen Gård: boengaard.no/ Accommodation at Boen farm two newly renovated apartments and fishing in easy walking distance. 4 bedrooms with private baths. High standard. Self-catering. Meals can be ordered at your expense. (Friday-Saturday except on due to other events at Boen).

Laxá – Laxárdalur

River fishing for huge brown trout in Iceland

Place	Laxárdalur, Northern Iceland
Fishing rods	2
River	Laxá
Fishing days	3
Accommodation	Raudholar lodge
Time	16.00 16th June – 14.00 19th June
Value	NOK 20 000

The Laxardalur fishery is known for very big trout. It is fished with a maximum of 10 rods daily and anglers stay in the Raudholar lodge. The valley the river flows through is stunning with incredible landscape sculpted by the last ice age as well as a fairly recent volcanic activity.

The beat, Laxardalur, is sometimes referred to as the retirement home for the Big Laxa trout. This is where the big fish live. The river is wider and slower making it the perfect setting for dry fly fishing for enormous brown trout. The average size of trout sipping midges off the surface must be seen to be believed. Leave your 6X tippet at home for this kind of fishing but make sure to bring your smallest dry flies because these fish can be fussy as well.

The beats above the dam are considered by many to be the best trout fishing available in the world. The number and size of brown trout are incredible. We are proud and honored to be able to offer the Laxa Myvatn River to our clients.

Anglers stay in the Raudholar lodge where full board accommodation is provided. For more information:

Stjørdalselva - Einang Gård

The grand opening!

Place	Nord - Trøndelag - Stjørdal - Einang Gård
Fishing rods	2
River	Stjørdalselva
Fishing days	2
Accommodation	Breakfast, lunch and dinner are included
Time	1-3 June
Value	NOK 15 000

The Einang family, one of the most loyal donors to our auction, has this year donated two rods for the premiere fishing. Einang's beat is one of the best flyfishing beats on Stjørdalselva, famous from the writings of the Danish fly fisherman Jan Grünwald. The beat has many well-known pools all from the confluence with Forra and upwards.

This is a treasured beat to which anglers return to year after year. One has access to 5 km of the river divided into two zones. There will be other rods on the beat, but with plenty of space for everyone. The buyers are welcome to the traditional Premiere Dinner on May 31st at 18.000. Great stories to be told. Fishing starts at 0.00, the night of June 1st. This year the donors have included breakfast, lunch and dinner. The dinners served are based on local food. Guiding is also included throughout these days.

Altaelva

The name says it all

Place	Alta, Finnmark
Fishing rods	1 rod, can be shared among maximum 3 anglers
River	The Alta River
Fishing days	2 days
Accommodation	The Stengelsen Lodge
Time	July 20-22
Value	NOK 150 000

The chances of catching a huge MSW salmon at the Alta is unparalleled and no other Atlantic salmon river enjoy such worldwide reputation. Like for all salmon rivers fishing is a gamble dependent upon the conditions but previous buyers have caught up to 11 big MSW and numerous grilse during their stay. Others have had the fishing experience of their lifetime, enjoying even greater sport. The fishery is for two different beats and licenses.

July 20: Permit no 18 at the Stengelsen beat. July 21: Permit no 19 at the Langstilla beat.

The fishing commences at 18:00, ending at 12:00 the following day. The river is rested between 12:00 and 18:00. Up to 3 fishermen can share the rod. Remember, there is 24 hours daylight and fishing is very productive during the night. If desired the rod sharers can fish and sleep on shift. Guides/boatsmen are mandatory and at the client's expenses. ALI can of course assist. Accommodation is at the Stengelsen self-catered fishing lodge. Catering service can of course be provided but at the client's expenses. If the time of the fishery should be unsuitable ALI may adjust this slightly. Transport from/to the airport will be arranged and the client will be met at the Alta Airport by a representative from ALI or a guide.
