## About Reddvillaksen.no

---

Reddvillaksen.no is a nonprofit foundation established by Orri Vigfusson/NASF, formally established in 2008. The foundation is committed to bringing atlantic salmon and sea trout back in abundance. The board has 8 members, all working on a voluntary basis with no economic compensation. The foundation provides direct financial support to important projects. We are lobbying and talking to the politicians, informing about the present negative effects caused by the aquaculture industry. Reddvillaksen.no wants to make it clear that basically we do not oppose to having a salmon farming industry but present production method with open pens is as far from sustainability as can be. On salmon and sea trout issues we are working together with all major Norwegian organizations with wild salmon protection on their agenda. Our main income source is the annual "Wild Salmon Auction" taking place late autumn in Oslo.

Our main goals:

- Salmon nets in the sea are illegal, fishing on mixed- endangered - and other countries' stocks. Should be stopped immediately.
- We claim that the present salmon farming techniques based on open pen nets are environmentally hostile, representing a serious threat to wild atlantic salmon and sea trout. Current salmon farming in open pen nets is therefore not sustainable. All open pens nets must be converted to closed containment technology - now!
- Double marking for identification and traceability of all farmed salmon.
- Considering the alarmingly low number of adult salmon returning to our rivers too many fish are killed by Norwegian sports fishermen. Reddvillaksen is promoting catch & release policy and stricter bag limits to secure enough fish on the spawning grounds.
- We provide economic support to improvement of spawning areas and living habitats in creeks and streams.
- We cooperate with ASF and all NASF organizations worldwide

## Gaula NFC

### Norwegian Flyfishers Club invites very attractive Gaula fishing

Norwegian Flyfishers Club offers salmon fishing on some of the premium fly beats on the mighty Gaula. Fishing takes place both above and below the Gaula waterfall, securing consistent fishing regardless of water level and river conditions. The lodge is located riverside at the Rogstadmoen Farm, close to many of the better pools above Støren. Buyer will fish a number of excellent quality pools on a rotation system, two rods fishing together. Famous pools such as Tysshølen, Renna, Tilset, Long Pool, Bogen Søndre, and Lundamo are included. Accommodation in the brand new NFC lodge with an international atmosphere. Single rooms with en-suite bathrooms. Breakfast and dinner are included, and the lodge also has a fully licenced bar, a tackle shop, and if that is not enough; a sauna with massage is available upon request. If desired, you can hire friendly and highly skilled guides.

## Aa-elva, the River Aa

### The small hidden river with the big fish

---

The river Aa is a hidden gem of a river in the Nordfjord region in western Norway, about 40 minutes drive from Sandane Airport. The river has 12 named pools varying between fast water with pockets and more classic waters, all offering exciting fishing in wonderful surroundings. The river holds all sizes of salmon, from grilse to huge MSW fish. Every year fish of 13-17 kg are caught. Last part of June and first half of July is prime time. Accommodation in single rooms in the Aa Fishing Lodge with a wonderful view of the lower part of the river and the stunning surroundings. Fishing commences and ends at 15:00 hrs. Buyer will be fishing together with other fly fishermen at the lodge. Fly fishing only and catch and release is mandatory Self catering.

## Bolstadelva

### A great river on the west coast

---

River Bolstad is a classic river in the western region of Norway. Here you can participate in a research fishery, (upon approval from local authorities), and the salmon can be big. River Bolstad, (the lower part of river Vosso), has been closed for ordinary fishing for many years due to low stocks of fish. To save this unique stock of large salmon which the river is famous for, a joint project has been ongoing for many years to reestablish this stock with genes from salmon originating from river Vosso. The biggest salmon caught this year during "Camp Wild Salmon" in the beginning of august, was 16,2 kg.

Boats are available in all the pools as well as a local guide. You will be staying at Oddsbu, which is an experience in itself. Built by Odd Haraldsen / Flyspecialist and previously occupied by the likes of Kjell Hallbing, Arthur Oglesby and other well known fishing profiles. Buyer has the entire facility at their disposal. The lodge's walls are filled with pictures of monstrous fish and their fishermen and ladies from the time when the river was on its peak,

## Stjørdalselva - Hembre

### Exclusive fishing on the Hembre beats!

---

For this year's auction Hembre Gård offers a unique opportunity for salmon fishermen to enjoy exclusive fishing for two fishermen on the Hembre beats. A total of 2,1 km. to just yourselves! You will be guided by top guide Hajas Andersson. He will take you to secluded pearls under all kinds of conditions, both in terms of weather conditions and water levels. Hajas will be at your disposal full time. This is an outstanding opportunity to experience your dream-fishing at Hembre in August. You will stay in the beautiful "Hovedlåna" where you will be treated with breakfast, lunch and a delicious 3-course dinner. Alcoholic beverages are included.

What more could you ask for?

## Mørrums Kronolaxfiske

Unique opportunity, prime time fishing for large salmon and sea trout

Mörrum is Sweden's crown jewel in the sport context, and one of the world's most famous rivers for salmon and sea trout fishing. Those of us having lived for a while, never forget wet fishy dreams when ABU yearly released "Napp and News" with nice gear and pictures of giant fish. The Swedes have managed their fishing well, Mörrum delivers year after year. Buyers may freely choose which of the MÖRRUM zones they would prefer to fish - and when. The first day include a one hour instruction with one of the river's expert guides. The package is valid for 2 people. Accommodation at Kronolaxfiskets own home with a shower and toilet, riverside. Alternative and more comfortable accommodation can be arranged, but at the buyer's expense. The buyer can choose days between the 1/9 and 30/9. Fishing must be booked no later than February 15, 2019.

# Namsen

## The queen of rivers - Grande Gaard

This opportunity to fish the Namsen is not to be missed. Great fishing for two days for up to four anglers. Charming accommodation in a house or cabin. Here you can design your dream package yourself since this slot offers many different options, all with with different challenges. 6 km of pure opportunity awaiting. Some parts are best suited for fishing from a boat, others from the bank. The land owner will set you up perfectly, based upon your own preferences and choice. Upon arrival buyer will be taken on a tour to get acquainted with - and to see the surroundings and the river. Fishing guide and/or boatsman can be arranged but is not included. Buyers travelling from distant locations are recommended to go by plane to Namsos or Vaernes airport, respectively 25 minutes or 2,5 hours by car. Comfortable accommodation is included, with made beds and towels. Also, if you want to add more days to your fishing, this can be arranged.

## Lakselva i Porsanger

### In the realm of the huge salmon

---

The river Lakselva is known for its huge MSW salmon. In good years the 10 largest salmon caught have all been above 20 kg. Only matched by the mighty river Alta. Your local contact Egil, with vast experience from this river, will increase your chances of catching the salmon of your dreams. Due to its popularity, Lakselva is very difficult to get access to. This unique slot allows buyer to fish all four zones of the river. There will be other anglers present, but there is always plenty of space and opportunities. In the summertime here is 24 hours daylight and a good tip could be to fish during the night if the weather is very bright and sunny. This package includes simple accommodations in a charming cabin just a spey-cast away from the lovely "Pikkulompola" pool. If desired, accommodation upgrading can be arranged but at buyer's cost. Lakselva is a late bloomer and the salmon run usually starts late June with fresh salmon continuously entering through the entire remaining season. The fishing commences and ends at 18:00 hrs.

# Alaska

## Experience the wilderness

---

Henrik Wessel is a Norwegian who has been rambling around and has seen more of the globe than most of us. He has been living in Alaska for more than 20 years and for a long time he worked with government environment quality matters. Until he dived into the bushes and found HIS river. Since he is a multitasking guy who knows a lot about everything he just built a lodge with his own hands, situated at the banks of Clear- or Chuniilna Creek. The river is crystal clear and most of the fishing is sight fishing from the banks. The river holds all species of Pacific salmon, rainbows and arctic char. Pick the time for your fishing depending upon what type of species you want to fish for. In addition to just staying at the lodge Henrik also recommends a sightseeing with a private plane or helicopter. Buyer is recommended to contact Henrik as soon as possible to avoid full booking at the desired time of visit.

## Lærdalselva- Hauge

### Big salmon and great pools

---

Hauge is a great beat in the lower part of the river , between Hunderi on the lower side and Eri on the upper. Early season and the Hauge beat always means big MSW salmon, every year.. The beat has 6 classic pools, of which Hegg, the inlet of the legendary Greenbank pool, is the one always producing the most fish. Both early and later in the season.

The entire beat is double bank fishing and the bridge crossing the top of Hegg provides easy access to both sides.

Accommodation in a beautiful cottage owned by Kristian and Hedda Heyerdahl Braathen (Hedda is seated in the Reddvillaksen board). It is beautifully situated, free and high, slightly upstream from the Hauge beat and just a few minutes drive down the valley to the beat. Fly fishing only.

All female fish and sea trout must be returned to the river. Bag limit.

Fishing commencing 14:00, ending 12:00.

## The Repparfjord River

### Salmon way up north

---

The Repparfjord River, Repparfjordelva, is a gem of a small Arctic river. Crystal clear and ideal for the fly fisherman. In particular for those keen on dry-fly and riffle hitch-fishing. The river is a beautiful mix of relatively small and shallow pools with whitewater and rapids between them. In the middle section of the river it slows down for about 4 km. with deeper pools. A very charming river in which the salmon runs all the way into the mountains of Sennalandet. That far up the fishermen are fewer and you can walk for hours in pristine surroundings. The fish willingly takes the dry-fly or a riffle-hitch, and we can guarantee good sport on both single- and double hand rods. The permits are valid for all zones, from the sea to top. We recommend end of july, or beginning of august.

## Stjørdalselva - Austkil

### With some of the rivers best pools

---

Beautiful Austkil Gjestegård is located halfway up the river, offering great fishing in several of the river's premium pools. Austkil offers exclusive fishing and accommodation to buyers preferring seclusion from others anglers. 1,5 km with some of the the river's most productive pools including Sonoset, Holmene and Østkilskogen.

The package is for 6 rods. Charming accommodation in Masstua (brewery house) and self-catering in a well equipped and practical kitchen. The ambiance in these old but well-kept houses is always excellent. Both river and housing is exclusively at buyers disposal.

## Lærdalselva - mid- river

Prime time at hard to get beats and pools  
(July 23-26)

Here comes a real treat.

A mixture of the premium beats in the mid-river combined in one. Few, if any, will ever get this opportunity.

July 23-24. One day fishing at Nedre Lysne Fiskesameie with pools like Bruhølen, Blaaflat and Nedre Lysne. Commencing at 12:00, ending 11.00 on the 24th.

July 23-26. 3 days fishing at the Voll Beat with pools like Old Pastor and Kuvelda . Commencing at 17.00, ending at 14.00

July 24-26. 2 days at Nedre Voll and Eri/Voll. With pools like Sunray, Sanda, Svingen and Merket. Commencing at 17.00, ending at 14.00

Accommodation is a king worthy. You will stay at the Hunsteigen Lodge, like in a five star hotel with all facilities. 5 double rooms with bath / 10 beds. In addition other facilities like equipment room, outdoor whirlpool and fireplace, a top notch kitchen and living room. It is emphasized that when fishing the Hunsteigen beats at Voll, it is mandatory to use the rods, reels, lines and waders belonging to the lodge only. All high quality equipment. No exceptions. The chairman of Reddvillaksen, Jens Olav Flekke, will be your full time guide and will stay in his own room at the lodge. The last part of July and the first part of August is considered to be prim salmon time in Lærdal Mid River and by this time Lærdal's famous big seatrout have arrived. This year the Hunsteigen pools produced salmon of 23.1 and 18 kg and seatrout best of 8.7 kg .

## The Lærdal River, Øye beat

### Early season MSW salmon

---

Being one of the most famous of salmon rivers in Norway the Lærdal does not need very much of an introduction. The Øye fishery is very much sought after and is very difficult to get access to. This slot is early season fishing for big MSW salmon, for which the Øye beat is the very best comprising 7 marvellous pools. Accommodation in double rooms at the Øye Farm in the charming Fishing House. Breakfast, dinner and night snacks are included. If desired, single room can be arranged at an added cost. You will be part of a group of six fishermen, all staying at Øye. In 2018 there was a bag limit of one male salmon pr. rod pr. day and most probably the same will apply for 2019. All females and sea trout must be put back. We recommend catch and release of all fish. Fly fishing only. Fishing commences on June 7 at 18:00 and ends on June 10 at 14:00.

## Årøyelvi (Aaroy) A gem that just improves

Årøy has been visited by anglers since the mid-1800 and the river has been owned by one landowner only. The group has the river exclusively, from the top - to the bottom. Secludedly located in the inner part of Sognefjord, the angler will enjoy a unique atmosphere of peace and quietness. The owner is an excellent chef, using local raw materials only, You might also meet him riding his beer-moped, serving thirsty anglers a tap of his home brewed beer! One very skilled guide is always at hand to assist the guests.

The Årøy river is short and wild and so is her salmon, enabling them to enter the fast flowing, white water. For the last years the fishing has improved steadily. Be ready for the fight of your lifetime! Some of this thrilling fishing takes place from "the platforms of despair" (named so by the late Charles Ritz). We recommend a strong leader! The river has a long season with silvery fish running deep into September.

One skilled guide is included. By the beginning of September the seatrout is coming in,. Some of them can be big due to heavy feeding on herring 365/24/7. Bring some lighter tackle, black flies, headlight and a battery powered defibrillator. Just in case. Enjoy.

## Orkla - Midtre and Øvre Ekli

### Great fishing, great accommodation!

The Orkla is a wonderful river and has enjoyed a very good season this year. Øvre- og Midtre Ekli (Upper and middle Ekli) are considered to be two of Orkla's ultimate beats, in particular the Upper, both offering the fly fisherman varied and challenging fishing for big MSW salmon. With the beats' legendary catch records it is close to impossible to get access to this fishery. We therefore are very pleased to have this offer even for this year's auction. In combination with the accommodation at The Bårdshaug Mansion Hotel we are convinced that the buyer will have a memorable stay and hopefully fishing to be remembered for years. Fishing is for two days and nights, all 24 hours. (Daylight all through the night).

The first day, June 5th, you will begin fishing at Middle Ekli at 12:00 hrs. The second day, July 6th, start up at 12:00 hrs at Upper Ekli and finishing on July 7th midday at 12:00 hrs.

## Urvoldvassdraget

### Big seatrout in unique nature

---

The Urvold river system holds one of the densest stocks of spawning seatrout in Norway and at this time both the lake and the river should be filled with sea trout. It also holds a good number of sea run arctic char and salmon. The water is crystal clear and at fall and spawning time hundreds of fish can be observed in the pools. The river seems perfect for light tackle flyfishing, but the clear river makes for challenging conditions. Most of the fish is caught from boat in lake Urvold. Hence the buyer should be comfortable with fishing from a boat.

This one week package comes with a well equipped cabin, 2 bedrooms and a loft. An additional outhouse with sauna , shower and toilet is also included . You can drive your car to the doorstep. A short 35 minutes drive from the cabin buyer is allowed to fish the river Terråk and adjacent lakes holding big trout.

Villaksauksjonen 2018

## Gaula

### The famous Frøset Pool

---

The Frøset Pool is a long pool in the middle part of the river. This slot offers fishing at prime time when the pool usually is filled with leaping fish. Very encouraging. The Sokna tributary is merging with Gaula at the top of the pool, offering very simple and nice single hand fishing with a short line. Ideal for youngsters about to be addicted to salmon fishing. This is the place where a youngster or a rookie can experience the fishing of their lifetime. Without doubt, this can be some of the best July fishing available in Norway. The fish is always present in the pool but it is up to you to hook them. Accomodation in the very nice Fishing cabin at the riverbank, overlooking the pool. Catering is not included but the kitchen is very well equipped. The beds are equipped with duvets and blankets. Linens and towels must be brought by the buyer. The fishing commences at 20:00 and finishes at 17:00.

## River Nærøy, (Naeroy)

### Salmon and sea trout in a stunning valley

---

Imagine fishing for big salmon and sea trout in a crystal clear river flowing through a beautiful valley surrounded by dramatic and snow capped mountains. That is Naeroy, emptying into the sea in the World Heritage Area of Nærøyfjorden, at the deep end of the world's longest fjord, the Sognefjorden.

From an angling perspective, this is a highly challenging river that has produced good catches over the last decade due to excellent management by the river owners and beat managers who through their management have secured a large and healthy spawning stock. At low water conditions; a good tip is dapping a large Sunray in the whitewater in-runs. You might be rewarded by seeing a large salmon popping its head up snatching your fly! The river holds both large salmon and large but spooky sea trout. The beat is 6 km, fished by a total of 6 rods so there are plenty of space and many pools to check. Accommodation in a camping cabin with self catering. The fishery is on a rotation system,

## Stjørdalselva - Einang Gård

### The grand opening!

---

The Einang family, one of the most loyal donors to our auction, has this year donated two rods for the premiere fishing. Einang is one of the best flyfishing beats on Stjørdalselva, famous from the writings of the Danish fly fisherman Jan Grünwald. The beat has many well-known pools upstream the confluence with the Forra river. This is a treasured beat to which anglers return, year after year. Buyer has access to 5 km of the river divided into two zones. There will be other rods on the beat, but there is plenty of space for everyone. The buyers are welcome to the traditional Premiere Dinner on May 31st at 18:00 at which great fishing stories always are told. Fishing commences at 00:00, the night of June 1st. Breakfast, lunch and dinner is included. All dinners are based on local food. Guiding is included.

## Rio Gallegos Patagonia, Argentina World class fly fishing for monster trout

Estancia Las Buitreras is located on the stunning Rio Gallegos, one of the best searun brown trout rivers on the planet. With a 40 km stretch of private water, including both sides of the river, more than 50 named pools, and a maximum of 12 anglers per week, anglers will fish new sections and rested waters all week long. The area features varied terrain ranging from deep pools with steep banks to fast-moving stony runs and flowing streams atop shingle beds. The variety of pools and fishing techniques, in combination with the visually inspiring mountainous landscape, makes this part of the Rio Gallegos one of the most spectacular stretches of fly fishing water in Patagonia. Our guides are fluent in English and Spanish and are great casting instructors for those wanting to improve their casting or learn a few local tricks and techniques. The Lodge serves breakfast, lunch and dinner with a focus on using local produce. All meals, snacks and drinks, including our high quality Argentinian red and white wines are all included along with some really nice local and international beer. Lodge record: 14,2 kg / 31.5 lbs

## Alta

### The name says it all!

---

The chances of catching a huge MSW salmon at the Alta is unparalleled and no other Atlantic salmon river enjoy such worldwide reputation. Like for all salmon rivers fishing is a gamble dependent upon the conditions but previous buyers have caught up to 11 big MSW and numerous grilse during their stay. Others have had the fishing experience of their lifetime enjoying even greater sport. The fishery is for two different beats and licenses.

July 20/21: Permit no 18 at the Stengelsen beat.

July 21/22: Permit no 19 at the Langstillla beat.

The fishing commences at 18:00, ending at 12:00 the following day. The river is rested between 12:00 and 18:00. Up to 3 fishermen can share one rod.

Remember, there is 24 hours daylight and fishing is very productive during the night. So, if desired, the rod sharers can fish and sleep on shift.

Guides/boatmen are mandatory and at the client's expenses. ALI can of course assist. Accommodation is at the Stengelsen self-catered fishing lodge. Catering service can of course be provided but at the client's expenses. If the time of the fishery should be unsuitable ALI may adjust this slightly. Transport from/to the airport will be arranged and the client will be met at the Alta Airport by a representative from ALI or a guide.
